Software Engineer in training with experience developing end-to-end web applications, focusing on architecture, code quality, and sustainable system evolution. I have nearly two years of experience in web development, working with React, TypeScript, Node.js, NestJS, databases, REST APIs, AWS, testing, and CI/CD. I quickly learn new technologies and programming languages according to project requirements, always seeking to understand the problem, evaluate alternatives, and build simple, consistent, and scalable solutions.

Core Stack: Node.js • TypeScript • NestJS • Angular • React • Next.js • PostgreSQL • MongoDB • Redis • Docker • AWS • CI/CD • Git

Professional Experience

Technical Mentor

Centro de Inovação da Escola Politécnica - PUCRS • Remote • Jul 2025 – Present

- Responsible for the technical training of more than 75 aspiring female developers in web development.
- Planned and delivered classes, workshops, and practical projects using React, Next.js, TypeScript, and Node.js.
- Conducted code reviews and provided technical guidance throughout project development.
- Created educational materials and helped define coding standards for the program.
- Mentored participants on component architecture, API consumption, state management, and software development best practices.

Fullstack Developer

Mainnet Design • Remote • Jun 2025 – Jun 2026

- Worked as a contractor developing end-to-end web solutions focused on quality, performance, and scalability.
- Developed dashboards, reports, and CRUD operations using React, TypeScript, Node.js, and NestJS.
- Designed and integrated REST APIs and AWS services, including Lambda and S3.
- Participated in architecture decisions, data modeling, and API contract design.
- Identified and resolved performance bottlenecks in database queries and frontend components.
- Set up CI/CD pipelines with GitHub Actions and investigated production incidents.

Fullstack Development Internship

Aceleradora Ágil - Remote • Jan 2025 – Jul 2025

- Contributed to the development and evolution of an educational platform used by hundreds of users.
- Developed authentication, registration, and content display modules using React, Next.js, TypeScript, and PostgreSQL.
- Refactored legacy features, reducing technical debt and improving code maintainability.
- Participated in defining API contracts, component architecture, and data models.
- Collaborated on code reviews, pair programming sessions, and Agile ceremonies.

Technical Skills

Frontend: React • Next.js • TypeScript • JavaScript • HTML5 • CSS3 • Tailwind CSS • React Hook Form

Backend: Node.js • NestJS • REST APIs • PostgreSQL • MongoDB • MySQL • Redis • Python

DevOps and Cloud: AWS • GCP • Docker • GitHub Actions • CI/CD • Linux • VPS

Architecture and Engineering: SOLID • Clean Architecture • Microservices • RESTful APIs • Git • Data Modeling • Unit Testing • Integration Testing • Observability

Methodologies: Scrum • Kanban • Agile Development

Certifications

AWS Certified Cloud Practitioner (CLF-C02)

Amazon Web Services — 09/2024

Education

Associate Degree in Computer Systems

Universidade Federal Fluminense — UFF

2026–2028 · In progress

Languages

English — Advanced

C1 reading and writing | B2 conversation

Experience with technical documentation, meetings, and professional communication
